

Dear Parents/Carers,

23rd October 2020

There have been numerous reports of parents parking inappropriately outside the school when dropping off and collecting children. This has included blocking the entrance to our school, parking on pavements and visibly marked 'Keep Clear' areas. We have also had complaints from local residents who have had their driveways blocked and are unable to leave or return to their properties. All of this is unacceptable.

Please be aware of the children walking to school and their need to cross the road with clear visibility. If you are parking without due care to the road marking's, you are putting these children at great risk. There are also Blue Badge Holders entitled to enter the school site in the morning and need to have access.

This is a major breach to the safety of your children entering and leaving the school. Please ensure you park with care and consideration to all. There is ample parking down Wren Way, alternatively you can park in Moor Road playground car park and walk through Farnborough Town Football Club or park in the Football Club car park and walk the very short distance to the school playground.

Local residents have informed the council and highways agency and have been told that parking patrols will start randomly outside the school gates at school drop off and pick up times. These patrol officers will issue parking and penalty notices for illegal and inappropriate parking.

Thank you
