If your child has a Nintendo Switch, have you set up the parental controls yet? You can either set up the controls on the console itself or Nintendo have created a free app that you can download and link to your console. The app allows you to adjust various settings, including: Limit play time, restrict communication with others and restrict allowed games by ages.

## How to stop others adding you to WhatsApp groups.

Follow these simple steps

For **Android** : select > **Settings** > **Account** > **Privacy** > **Groups**

For **iPhone**: select **Settings** > **Account** > **Privacy** > **Groups**.

Select one of the following options:

- **Everyone:** Everyone, including people outside of your phone's address book contacts, can add you to groups without your approval.
- **My Contacts:** Only contacts in your phone's address book can add you to groups without your approval. If a group admin who's not in your phone's address book tries to add you to a group, they'll get a pop-up that says they can't add you and will be prompted to tap **Invite to Group** or press **Continue**, followed by the send button, to send a private group invite through an individual chat. You'll have three days to accept the invite before it expires.
- **My Contacts Except...:** Only contacts in your phone's address book, except those you exclude, can add you to groups without your approval. After selecting **My Contacts Except...** you can search for or select contacts to exclude. If a group admin you exclude tries to add you to a group, they'll get a pop-up that says they can't add you and will be prompted to tap **Invite to Group** followed by the send button to send a private group invite through an individual chat. You'll have three days to accept the invite before it expires.

If prompted, tap **DONE** or press **OK**.

SWGfL have written online safety posters to help support parents with online safety and social media and gaming. Please click on the image to access a full size leaflet.
